Technical Skills

Frontend

- HTML5
- CSS/SASS
- JavaScript
- TypeScript
- React
- Next.js
- Vue.js
- Redux
- Redux Toolkit
- Zustand
- Axios
- Responsive Design
- A11y

Backend & Infrastructure

- Node.js
- Express.js
- REST API
- PostgreSQL
- MySQL
- MongoDB
- Prisma
- Linux
- Docker
- CI/CD
- Git/GitHub
- GitHub Actions
- SSH
- DigitalOcean

Automation & Documentation

- Python
- Swagger
- VitePress
- Markdown
- JSON/YAML

Education

- **Master of Telecommunications**
Odesa National Academy of Telecommunications O.S. Popov
09/2006 - 06/2010 | Odesa, Ukraine

Certificates

- Full-Stack Developer - 10/2023
- DevOps and Kubernetes - 05/2024
- Telc DTB B2 - 07/2024

Experience

Full-Stack Software Engineer

06/2025 - Present

DoGood Impact Inc. | USA (Remote)

React • Next.js • TypeScript • Node.js • PostgreSQL • Prisma • Docker • GitHub Actions • Swagger • VitePress • Stripe

- Developed and optimized scalable frontend and backend components for an international non-profit platform, ensuring a stable and maintainable application architecture.
- Designed and implemented interfaces between frontend and backend services to provide consistent data structures and reliable communication.
- Created and maintained technical project documentation, improving maintainability and knowledge sharing across the team.
- Automated API documentation and repetitive development workflows, reducing manual effort and increasing efficiency.
- Collaborated closely with frontend, backend and design teams throughout MVP development, actively participating in sprint planning, backlog refinement and code reviews.
- Delivered technical solutions independently while ensuring the quality, reliability and maintainability of implemented features.

Frontend Developer

11/2023 - 12/2023

SoftRyzen | Kyiv, Ukraine (remote)

React • Next.js • Tailwind CSS • Figma • Trello

- Developed interactive user interfaces for a commercial client, delivering an intuitive and user-friendly experience.
- Implemented dynamic tab components for the "Benefits" and "FAQ" sections, improving website interactivity.
- Built reusable UI components, customized the Tailwind configuration and ensured a consistent design system.
- Analyzed and resolved cross-browser compatibility issues to provide a consistent experience across modern browsers and devices.
- Collaborated with developers and designers in an Agile Scrum team to deliver project milestones on schedule.

Achievements

Team Leadership

Led development teams of up to 14 members, coordinated sprint planning, and conducted code reviews.

Deployment & Infrastructure

Independently deployed and administered full-stack applications on DigitalOcean, including Linux server provisioning, configuration, and application deployment.

Software Quality

Developed a portfolio website that achieved a 100/100 Lighthouse score for Performance, Accessibility, Best Practices, and SEO.

Documentation & Architecture

Designed the technical documentation architecture and automated the generation of backend Swagger documentation using GitHub Actions.

Languages

- German: B2
- English: B1
- Ukrainian: Native
- Russian: C2

Soft Skills

- Problem Solving
- Analytical Thinking
- Continuous Learning
- Self-Management
- Attention to Quality
- Teamwork
- Accountability

Portfolio

Projects

Portfolio - (Website | GitHub)

10/2024 - Present

Next.js • React • TypeScript • Styled Components • EmailJS • MailboxLayer API • Yup • Vercel • Git • GitHub

- Developed a responsive portfolio website featuring reusable UI components and a multi-step validated contact form.
- Ensured cross-browser compatibility, automated deployment with Vercel, and achieved a 100/100 Lighthouse score for Performance, Accessibility, Best Practices, and SEO.

Car Rental - (Website | GitHub)

09/2023 - 10/2023

React • Redux Toolkit • React Router • Axios • Emotion Styles • Framer Motion • GitHub Actions • GitHub Pages

- Developed a responsive vehicle rental application with search, filtering, and favorites functionality.
- Integrated a REST API, automated deployment with GitHub Actions, and published the application on GitHub Pages.

GooseTrack - (Website | GitHub)

09/2023 - 10/2023

Team Project. Role: Frontend Team Lead, Scrum Master, Developer.
React • Redux Toolkit • React Router • Axios • REST API • Trello • Git • GitHub

- Developed key calendar features for a full-stack team application used to manage personal schedules and tasks.
- Led a frontend team of nine developers, coordinated sprint planning and code reviews, and collaborated closely with the backend team on REST API integration.

Phonebook - (Website | GitHub)

07/2023 - Present

React • Redux Toolkit • Axios • Node.js • Express • MongoDB • REST API • DigitalOcean

- Developed a full-stack contact management application with secure user authentication and complete CRUD functionality.
- Built and integrated a REST API and independently deployed the backend on a DigitalOcean server.

Professional Development

Linux & Network Administration Training

01/2026 - 05/2026

PortaOne Education Center | Remote
Linux • Bash • Oracle VirtualBox • TCP/IP • Routing • NAT • iptables • FTP • Apache • HTTPS/SSL • LAMP • MySQL • Docker • Kubernetes • Ansible

- Administered Linux systems, including Bash scripting, process automation and virtualization.
- Configured computer networks, web servers and MySQL databases in practical lab environments.
- Analyzed and resolved system and network issues and completed practical workshops covering Docker, Kubernetes and Ansible.

Full-Stack Web Development Training Program

11/2022 - 10/2023

IT-School GoIT | Kyiv, Ukraine (remote)
HTML • CSS • SASS • BEM • JavaScript • React • Redux Toolkit • Node.js • Express • MongoDB • Git • GitHub

- Developed five individual and three team projects covering frontend and full-stack web development.
- Served as Frontend Team Lead and Scrum Master, coordinating development teams of up to 14 members, sprint planning and task distribution.
- Conducted code reviews, collaborated using GitHub and promoted development best practices within the team.
